

INFSCI 2415 Mid-term Report

Fire Incidents numbers in the Pittsburgh Region from October 2022 to October 2023.

Figure 1: Waffle Chart

legend explained

- Each block symbolizes a single fire incident. Blocks of varying brightness, yet with a consistent base color, represent the same type of fire.
- Blue square represents fires in structures and associated facilities."
- Red square represents other fires and fires attributed to Human Influence."
- Green square represents rubbish fire.
- Purple square represents vegetation fire.
- Black square represents vehicle fire.

Findings text introducing highlights of the produced figure in bulletin point

- This is a Waffle Chart representing various types of fire incidents numbers in the Pittsburgh Region from October 2022 to October 2023.
- Blocks of analogous colors signify fires from the same primary category.
- The more blocks present, the higher the count of such fires. Conversely, fewer blocks indicate a lower number of fire incidents.
- By observing the distribution of fire types on the waffle chart, one can readily discern which fire category warrants the utmost caution and is most probable in future occurrences.
